Dissent On Trial - The 70s

Following the riots at the Democratic National Convention in Chicago in 1968, "The Chicago 8", including Abbie Hoffman, Tom Hayden, and Bobby Seale, were charged with conspiracy to incite those riots. "The Gainesville 8", seven of whom were Vietnam veterans and members of Vietnam Veterans Against the War, were charged with the same thing regarding the Republican Party Convention in Miami Beach in '72 before the convention. Russell Means and Dennis Banks, leaders of the American Indian Movement (AIM), were charged with conspiracy for leading the takeover of Wounded Knee, South Dakota, in '73. In Trials of the Century, this class will present information about these trials and the media, and cultural response as the court cases made headlines, and the issues may be relevant today.

Racial Equity Workshops

Ongoing Series

Racial Equity Workshop

Even those who are concerned about racial disparities in all American systems and institutions are challenged in their understanding of how racism remains alive and well, advantaging some while harming others. The Racial Equity Institute's (REI) two-day Phase I training is designed to develop the capacity of participants to understand racism in its institutional and structural forms. Moving the focus from individual bigotry and bias, the REI Phase I workshop presents an historical, cultural, structural and institutional analysis of racism. With a clear understanding of how institutions, systems, and culture are producing unjust and inequitable outcomes, participants are better equipped to work for change. Phase I builds the capacity of participants to identify the root causes of disparity and establish goals and strategies based on that deeper understanding. Participants develop an analysis of institutional racism that helps their organization develop a common understanding of the problem and a common language to address it. This paradigm-shifting experience redefines issues of equity as they manifest in systems and institutions today and the attendant actions of individuals who seek to address them.
